## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 1, the applicant has failed to provide any structural relationship between the deployment means and the ladder or casing. Note that in line 6, “may be reversibly reconfigured” may simply read --is movable--. Also, the storage configuration and deployed configurations have not be related to any structure of the apparatus, rendering the claim indefinite. Finally, the applicant has failed to provide proper antecedent basis for the handle. Note that in lines 4-5, “one or more handles” should read --at least one handle--, and in line 8, “at least one” should read --the at least one--. (Claims 18 and 19 recite similar ambiguities with respect to the stop means, and claim 28 with respect to the latch means) Similarly, the applicant recites antecedent basis ambiguities with respect to the handles throughout the claims.

In claim 7, are the deployed and storage positions the same as the deployed and storage configurations of claim 1?

With respect to claim 30, there is no antecedent basis for “the energy source”.

With respect to claim 35, the applicant has positively recited the building. Is the building required?

***Allowable Subject Matter***

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action. The following is a statement of reasons for the indication of allowable subject matter: the primary reason for the allowable subject matter is the inclusion of a means for deploying a ladder, as set forth on page 15, lines 13-20, and page 16, lines 15-19, of the specification.

***Response to Arguments***

Applicant's arguments with respect to claims 1-41 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Specifically, the applicant has now recited a handle reversibly moveable between stored and deployed configurations. See claim 1. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
